

Scafom-rux to introduce *Sycor.Rental*

Scafom-rux, one of the world's leading developers and providers of scaffolding systems, formwork and supports, has decided to introduce Microsoft Dynamics AX and the industry solution *Sycor.Rental*.

(Göttingen, Germany) The globally operating Scafom-rux group of companies will rely on Microsoft Dynamics AX and the industry solution *Sycor.Rental* for managing and controlling its rental business. "Initially, we plan rollouts in France, Belgium, the Netherlands and Germany," says Stephan Winterhoff, manager of the business area rental for Germany, and also international project leader at Scafom-rux.

As a developer and provider of scaffolding systems, formwork and supports, Scafom-rux offers a broad and far-reaching innovative range of products. The company has set the bar high when it comes to efficiency, safety and functionality. On the basis of extensive testing and certification procedures and strict quality checks, the company manufactures reliable products that will hold up even under the most difficult working conditions. But Scafom-rux also stands out for its customized solutions and clear commitment to customer service. It develops special solutions and systems for customers in a variety of sectors: construction, shipbuilding, petrochemical industry, power plant operators, infrastructure and offshore.

"We are thrilled to have landed yet another truly global player, Scafom-rux, as a customer for *Sycor.Rental*, our ERP industry solution for the rental business," says Frank Jakobi, who is in charge of the Microsoft Dynamics AX division at Sycor.

About *Sycor.Rental*:

Sycor.Rental is the fully integrated global ERP industry solution for the rental, trade and service of mobile investment goods. *Sycor.Rental* reproduces the complete process chain for rental: from CRM and quotations, to scheduling, returns and workshop, to lease management as well as financial and asset accounting and controlling. *Sycor.Rental* supports individual and bulk rentals and controls long and short-term rentals, project-based rentals, as well as outlet retail processes. Flexible automated billing methods are integrated with customer-specific, time and object-dependent prices. *Sycor.Rental* offers company-specific functionality to renters of construction machines (heavy and light equipment), mobile cranes, working platforms, trucks and trailers, vehicles and mobile containers. In addition, *Sycor.Rental* meets the requirements of modern-day fleet management.

***Sycor.Rental* has so far been deployed in these countries:**

Algeria | Austria | Belgium | Brazil | Bulgaria | Canada | Chile | China | Denmark | Dubai | England | France | Germany | Hungary | India | Italy | Japan | Korea | Luxembourg | Mexico | Netherlands | Oman | Panama | Poland | Portugal | Qatar | Switzerland | Serbia | Singapore | Slovakia | South Africa | Spain | Turkey | Tunisia | USA

About Sycor:

As a service provider with over 350 employees throughout the world, the Sycor Group covers the whole spectrum of information and communications technology. With headquarters in Göttingen and further locations in Wiesbaden, Hamburg, Stuttgart, Düsseldorf, Pittsburgh (USA), Montreal (Canada), Singapore, Shanghai (China) and Kuala Lumpur (Malaysia), the company is as international as many of its customers.

The company has become one of Germany's largest comprehensive IT service providers for Microsoft Dynamics AX environments. Sycor is a Microsoft Gold Certified Partner and member of the Microsoft Dynamics President's Club 2011.

The company's full range of cross-industry services for Microsoft Dynamics AX encompasses consulting, development and training. Sycor implements solutions based on experience from many international rollouts and certified project management methods and assumes a project leadership role. Sycor also delivers comprehensive operation services, from hosting to multilingual support. Through numerous domestic and international projects, the company's consultants and developers have gained a wealth of process expertise and experience with Microsoft Dynamics AX installations for between 20 and 1,100 concurrent users.

With industry solutions based on Microsoft Dynamics AX and teams of experts Sycor also supports companies in the mobile goods rental, process and manufacturing, and retail industries.

The group of companies, founded in 1998, has had in place a quality management system certified according to DIN EN ISO 9001 since 2002. In 2010, the company recorded sales of 40.2 million euros.
